GERMAN EDITORS SAY NOTE MEANS PEACE IS NEARER

Feeling Is Reflected On the Stock Exchange With Advance In Prices.

ONE EDITOR SAYS NOTE IS "BRUTALLY FRANK"

Some Papers Condemn Wilson's Reply as Alteration of Former Views.

[ASSOCIATED PRESS TELEGRAM]

Amsterdam, Oct. 26.—Although the German newspapers are not satisfied with President Wilson's latest note, many of them say that it means progress toward peace This feeling was reflected in operations yesterday on the Berlin stock exchange in an advance in prices.

The Kreuz Zeitung, of Berlin, however, apparently does not look for an early ending of the war This newspaper, which hitherto has refrained from opposing President Wilson's demand, advocates war to the end. It says the president "in the style of an American boxer has posed himself for a last blow in the face of the German people expressing his intentions with brutal frankness"

NOTE IS CONDEMNED.

[ASSOCIATED PRESS TELEGRAM]

Copenhagen, Oct. 26.—With few exceptions the German press condemns President Wilson's latest note, saying it is an alteration of his former standpoint and betrays lack of comprehension of recent events in Germany as well as misconstruction of what has happened there. It is also said the note represents a concession to the demands of the allied nations.

Theodore Wolff, writing in the Tageblatt of Berlin, expresses great disappointment. He says it always has been a principle of international affairs not to interfere with the internal problems of other nations. President Wilson recognized this, he continues, in his Mexican speech in June, 1916, but now, Herr Wolff declares, this has been forgotten. He adds:

"The peace which the president proposes is to be a peace placing Germany at the mercy of its opponents. President Wilson's policy is one of brutal force. It is possible he hopes to sow dissention among the German people. We must be prepared for whatever may come."

The socialist newspaper Vorwaerts of Berlin says it does not understand whether complete internal reform on the part of Germany would make the terms of surrender easier. It continues:

"In any event, Mr. Wilson errs if he believes the former holders of power in Germany can ever regain their power. Henceforth, there will be no power in Germany but that of the German people. Our opponents who demand the disarming of the German people must realize that a great nation cannot permanently be rendered defenseless. It will be demonstrated at the peace conference whether the war has merely adjourned or finally ended."

PEACE AT ANY PRICE POPULAR IN VIENNA

[ASSOCIATED PRESS TELEGRAM]

Paris, Oct. 26.—In well informed circles it is said that the nomination of Count Julius Andrassy as successor of Baron Burian, the Austro Hungarian foreign minister, who resigned is, is, above all, important from the viewpoint of a conclusion of peace and an application of the "safety first" principle in Austria. It is said that peace at any price now is popular at Vienna and Budapest.

The Zurich correspondent of the Journal says that the new foreign minister is understood to be a partisan of direct peace negotiations with the entente without recourse to the offices of President Wilson. He says that the situation in Austria-Hungary is such that the monarchy will soon capitulate and throw itself on the mercy of the allies.

TEACH CHILDREN TO SAVE NATURAL GAS

[ASSOCIATED PRESS TELEGRAM]

Washington, Oct. 26.—School children in the natural gas producing states will be taught how they can assist in the conservation of millions of dollars worth of natural gas through a course of instructions to be established by the fuel administration.

The course, which will be established first in Ohio and Kentucky and later offered in other states, will show that $36,000,000 worth of gas may be saved annually by proper adjustment of cooking appliances used by 2,000,000 domestic consumers. This saving, fuel administration experts have estimated, would release sufficient coal to make two million three inch shells.

FIXES HOG PRICE.

[ASSOCIATED PRESS TELEGRAM]

Chicago, Oct. 26.—A minimum of prices of hogs for November has been fixed at $17.50 as the daily average for packers' droves. A minimum of $16.50 has been fixed for all other hogs except throwouts, which consist of hogs under 130 pounds, stags, boars and skips.

As packing house products have been selling on a basis of $16.50 for hogs, the announcement today of the new basis for November resulted in a big jump of prices for pork, lard and ribs.

MOONEY ASKS REVIEW.

[ASSOCIATED PRESS TELEGRAM]

Washington, Oct. 26.—The supreme court in a petition filed by counsel today was asked to review the case of Thomas J. Mooney, sentenced to death at San Francisco for murder in connection with a bomb plot.

VIENNA ANNOUNCES PLAN TO DEMOBILIZE

TURN CLOCKS BACK AN HOUR; SLEEP LONGER

Father Time Given Chance To Catch Up With Hurrying Americans.

MAYOR ATHERTON ORDERS CLOCKS STOPPED TONIGHT

Trains Will Be Delayed One Hour at Division Terminals.

In order to comply with the Government's request, I hereby proclaim that all clocks in the city of Newark be changed to central time on Sunday, October 27th. Clocks may be stopped one hour, or turned ahead eleven hours.

Signed,
H. A. Atherton, Mayor.

Um! the dread of getting up in the middle of the night is going to be alleviated by an hour any way, for after going ahead an hour in the spring we are now going to lose an hour, or return to Central time

In accord with the plan, the clocks will be turned back, stopped for an hour or turned ahead eleven hours at 2 o'clock, Sunday morning, October 27.

As turning back a clock is supposed to "be bad for it" it is suggested that they be turned ahead eleven hours or stopped for an hour. Clocks and watches may be fixed before retiring tonight. Train schedules will not be affected to any great extent They will merely be held at terminals so as to leave on the proper hour.

The moving ahead an hour was approved in the spring in order to secure more daylight working hours. An agitation was made to make the move permanent but this failing, the country will go back an hour to make up the gain in the spring.

According to an Associated Press dispatch from Washington the official turning back of clocks will take place. The dispatch states:

"At 2 o'clock tomorrow morning the United States will complete its test of 'daylight saving.' At that hour clocks of the naval observatory here and other agences by which time is regulated in this country will be stopped for one hour while the sun, which daily has been lagging farther behind the nation's clocks, has a chance to catch up. At the same time trains on all railroads of the country will stop by order of Director General McAdoo and remain motionless for one hour, then proceed on their way."

SAY TURKEY IS ASKING PEACE

[ASSOCIATED PRESS TELEGRAM]

London, Oct. 26.—The Turkish minister to Switzerland has handed the British and French ministers to that country an offer of peace virtually amounting to surrender, according to a Berne dispatch to the Daily Mail.

AUSTRIANS LEAVE ON A SECRET MISSION

[ASSOCIATED PRESS TELEGRAM]

Zurich Oct. 26.—Prince Frederick Lobokwitz and Baron Nadherny, who represent the strongest anti-German tendencies at Vienna, have left that city for Switzerland charged with a mission about which no details are given according to the Neues Journal of Vienna.

HUNS DESTROY MANY HISTORICAL DOCUMENTS

[ASSOCIATED PRESS TELEGRAM]

Paris, Friday, Oct. 25.—Deliberate destruction of property and documents of historic nature was carried out by the Germans at St. Quentin, according to a report made to Premier Clemenceau by the municipal authorities of that city who have made an investigation.

Ancient city documents which had been walled up under control of the German command and placed under seal were found to have been removed or burned. Evidence showed that this occurred shortly after the inhabitants fled from St. Quentin in March, 1917. At the cathedral an attempt was made to mine the great pillars, but the rapid advance of the French prevented the Germans from carrying out their design.

In stripping every factory in the city the Germans carried off all models and designs and even the accounts of the various companies were removed. The municipal authorities ask that an allied or neutral commission visit the city soon to establish the falsity of the statement made by Dr. W. S. Solf, the German foreign secretary, that the city was destroyed by shells from the allied artillery. Such a visit would also, they say, establish that the German depredations were actuated by a determination to crush the economic life of France.

AUSTRIA PREPARES TO DISBAND ARMY

[ASSOCIATED PRESS TELEGRAM]

Basel, Oct. 26.—Vienna newspapers are publishing articles relative to preparations for demobilizing the army. One newspaper says that two infantry regiments stationed at Karlowitz have revolted. Karlowitz is a village in Croatia-Slavonia, Hungary.

MRS. ELLA F. YOUNG DIES OF INFLUENZA

[ASSOCIATED PRESS TELEGRAM]

Washington, Oct. 26.—Mrs. Ella Flagg Young of Chicago, chairman of the National Woman's Liberty Loan committee, died today of pneumonia following a short illness from influenza. Mrs. Young formerly was superintendent of the Chicago public schools.

AMERICAN SOLDIER ESCAPES HUN CAMP

[ASSOCIATED PRESS TELEGRAM]

Paris, Friday, Oct. 25.—The "Stars and Stripes," the official newspaper of the American Expeditionary Force, identifies the first American private soldier to escape from prison in Germany as Frank Savicki, and devotes a three column article to his experiences. Savicki, whose home was in Shenandoah, Pa., is a Russian Pole by birth, and has taken out his first naturalization papers.

While a prisoner in the hands of the Germans Savicki spent ten weeks behind the German lines, where he worked 14 hours daily on military work. He then was sent to a farm. He often went days without food and water and was clubbed by his guards for picking grass along a roadside to eat. Finally he was sent to the prison camp at Rastatt, where he received American Red Cross parcels from Switzerland.

After several weeks in the prison camp Savicki succeeded in escaping and making his way through the mountains into western Alsace, where he has joined his regiment.

WORLD SHIPPING CLOSE TO NORMAL

Gen. March Tells Senate Committee Tonnage Is Only Seven Per Cent. Less Than Before War.

[ASSOCIATED PRESS TELEGRAM]

Washington, Oct. 26.—The total world's shipping tonnage, members of the senate military committee were told at their war department conference today, is only seven per cent less than at the beginning of the war. American tonnage has been more than doubled.

Referring to the military situation, General March pointed out that the Franco-American lines from the Meuse to the Oise stood virtually parallel to the great railway line near the Belgian frontier and constituted a threat to that line throughout its entire length.

Among American divisions on that line General March identified the 79th (Pennsylvania, Maryland and District of Columbia); 80th (Virginia, West Virginia and Pennsylvania); 33rd (Illinois); 82nd, (Georgia, Alabama and Tennessee) as being east of the Meuse.

Identified units brigaded with the British east of Cambrai, General March named the 106th infantry, the 104th, 105th and 106th machine gun battalions. The 83rd, (Ohio and West Pennsylvania) division, General March said, is a depot division and has not been in action, while the 84th (Kentucky, Indiana and Southern Illinois) division is now arriving in France.

300 NURSES NEEDED IN OHIO FOR EPIDEMIC

[ASSOCIATED PRESS TELEGRAM]

Columbus, Oct. 26.—Though only 4,000 new cases of influenza has been reported at noon today to the state board of health, against 5,500 yesterday, Acting Health Commissioner Bauman said this should not be considered as indicating a breaking of the epidemic. Neither should the fact that only 254 deaths were reported today against 313 yesterday be construed as indicating abatement.

Only in isolated instances does there seem to be any indication of improvement. The state as a whole shows no signs of improvement, Bauman said

The need now of the health department is more nurses. Bauman said that from 200 to 300 nurses could be placed forthwith.

ANOTHER NURSE DIES.

[ASSOCIATED PRESS TELEGRAM]

Camp Sherman, Chillicothe, Oct. 26—Among the three deaths which occurred at the cantonment during the 24 hour period ending at noon today, was Laura H. Burden, nurse of South Bend, Ind., The total deaths now is 1053.

BERLIN AWAITS TERMS BEFORE SENDING REPLY

[ASSOCIATED PRESS TELEGRAM]

London, Oct. 26 —The German government is not contemplating at present any further note to President Wilson, says an Exchange Telegraph dispatch from Copenhagen. It is probable that the government will make a declaration in the reighstag to the effect that Germany is awaiting peace conditions of the allies.

WARMER WEATHER FOR NEXT WEEK

Washington Oct 26 —The house today adopted the conference report on the $6,000,000,000 military deficiency bill and sent it to the senate, where it is to be acted on Monday.

ALSACE WRONG TO BE RIGHTED, SOLF DECLARES

German Foreign Secretary Says Government Agrees To This Condition.

WILL MEET ALL DEMANDS MADE BY PRES. WILSON

Repudiates Doubt of Honest Intention to Carry Out Principles.

[ASSOCIATED PRESS TELEGRAM]

Amsterdam, Oct. 26.—"As for Alsace-Lorrame, it is at once clear that as these territories were expressly mentioned among President Wilson's fourteen points, we agree to regulation of these questions," said Dr. W. S. Solf German foreign secretary, in addressing the reichstag on Thursday. (In the address referred to, President Wilson said that "the wrong done France by Prussia in 1871 in the matter of Alsace Lorraine, which has unsettled the peace of the world for nearly 50-years, should be righted.")

"Moreover, having accepted President Wilson's program as the basis of the entire peace work," Dr. Solf continued, "we will loyally and in the sense of complete justice and fairness fulfill the program in all directions and at all points"

Only men of military age had been removed forcibly Dr. Solf asserted, and even then exceptions had been made in the case of physicians, clergymen, firemen, policemen and those employed in supplying food.

Referring to questions asked on the previous day, the foreign secretary said the government emphatically repudiated any doubt of its intention honestly to carry out the principles laid down by President Wilson. He added:

"Having in reply to the president taken its stand on his message, the government is relieved to act accordingly."

Speaking in the reichstag on Thursday Dr. Solf, said that Spanish minister Villalobar representing British and Belgian citizens and Commissioner Van Bree, of the Belgian relief organization, visited Tournai, Valenciennes and Denain on October 18 and reported that the German military authorities had done everything in their power to alleviate the condition of fugitives and residents in bombarded towns.

Dr. Solf also said that it had been reported to him that German authorities had tried to protect the people of those cities against plundering and that efforts had been made to safeguard food supplies and save art treasures.

FEDERAL INSURANCE BUREAU PROFITABLE

[ASSOCIATED PRESS TELEGRAM]

Washington, Oct. 26.—Despite the government's low marine insurance rate and the losses suffered through the submarine raids off the American coast, less than two thirds of the premiums paid to the marine section of the war risk insurance bureau have gone to pay losses.

This was shown today by a report that between September 2, 1914, when the bureau was organized, and Oct. 15, 1918, $1,846,497,000 insurance was written on ships and their cargoes, mainly those passing through the war zone, involving premium payments on 24,990 policies of $45,825,000, and that losses were $29,775,000.

Profits to the government was $16,050,000. All but $305,442,000 of the insurance has been written since the United States entered the war.

Insurance policies aggregating $187,398,000 have been written by the bureau on the lives of merchant seamen since June, 1917. Premium payments amounted to $783,000, losses, $281,000, and profits to the government $502,000.

The cost of administering the marine insurance for four years was $140,000 and the seamen's insurance $33,000.

GERMANS LOSE 50,000 IN LAST FOUR DAYS

[ASSOCIATED PRESS TELEGRAM]

Paris, Oct. 26.—The battle has flamed up again and heavy fighting now is under way from Valenciennes to the Meuse. The Germans are fighting well everywhere, but the allies continue to make substantial headway in the task of driving back the enemy on the Meuse line.

Although the recent fighting has been marked by no sensational developments it is having a cumulative effect which, apart from the ground gained adds considerably to the wastage of men and material with which the Germans must reckon. In the last four days the enemy has lost well up toward 15,000 prisoners and 200 guns. His total losses of effectives cannot have been less than 50,0000.

Strictly speaking there are three large battles in progress, all of which are being conducted with equal success for the allies. The first is being carried on by the British Third and Fourth armies, which, pushing on toward Mons, have reached the Valenciennes Hirson double track railroad. The second is the attack of General Mangrin north and east of Laon, which has resulted in a gain on a front of eight miles for a distance of two miles. He has carried his line out of the swamps around Sissons. The Third battle is being fought by General Guillaumat on a front of 17 miles from Sissons to Chateau Porcien, where the Hunding line joins the Kriemdhild system of defenses. The average gain has been a mile, although at some points the advance has been greater.

BRITISH CAPTURE TWO MORE TOWNS

ADVANCE BETWEEN VALENCIENNES AND TOURNAI CONTINUES, MARSHAL HAIG REPORTS TO LONDON WAR OFFICE.

AMERICAN TROOPS HOLD GROUND GAINED FRIDAY ON VERDUN FRONT

Heavy Enemy Artillery Fire Fails To Dislodge Pershing's Forces—Serbians and French Continue Advances On Fronts In France and In Balkans.

[ASSOCIATED PRESS TELEGRAM]

London, Oct. 26.—The British continue to press forward between Valenciennes and Tournai, Field Marshal Haig announces. They have captured the villages of Odomez and Maulde on the front north of Valenciennes.

British patrols have progressed north of the railway between Valenciennes and Le Quesnoy.

South of Valenciennes the British have gained new successes on the borders of the Mormal forest, capturing Mount Carmel Hill and Engle Fontaine.

SERBIANS STILL ADVANCING.

[ASSOCIATED PRESS TELEGRAM]

London, Oct. 26.—Kralievo, 60-miles east-northeast of Nish, has been occupied by the Serbian troops, says a Serbian official statement issued Friday. In the same region the Serbians have crossed the Tsrnitsa river.

YANKEES HOLD GAINS.

[ASSOCIATED PRESS TELEGRAM]

With the American Army Northwest of Verdun, Oct. 26, (2 p. m.) The gains made Friday by the American troops east and west of the Meuse were maintained today in spite of violent enemy opposition and a harassing artillery fire against the American front lines and the areas in the rear. On the extreme left the Americans have strengthened their hold on the high ground in the southern part of the Bourgogne wood.

The American position in the woods is such that the Germans no longer are able to harass the Americans with machine gun fire from the ridge at the edge of the wood.

In the center of the lines west of the Meuse the German artillery is bombarding the American lines heavily, with high explosives and gas shells. On the right the enemy made an unsuccessful counter-attack during the night. From 2 to 6 o'clock this morning they shelled the American lines there heavily, the bombardment at times reaching the intensity of a barrage but there was no further infantry action.

One new division and one new regiment have been identified as having been added to the German strength against the Americans. The division is a second class one which is reputed to have travelled more than any other in the German army. It has been successively on the eastern front, the Italian front, on the Somme and before St. Mihiel. The regiment belongs to the crack 28th German division.

Violent enemy reaction continue east of the Meuse and there has been desperate fighting all along the line. The American position now runs through the clearing between the Bellu wood and the Etray wood. The neemy's determination to hold the high ground east of the river is shown by the fact that he has thrown in one of his last remaining reserve divisions to check the American advance in the Bellu wood where the enemy is counter attacking persistently.

FRENCH TAKE TOWN AFTER VIOLENT FIGHT

[ASSOCIATED PRESS TELEGRAM]

Paris, Oct. 26.—On the Serre front southwest of Marle the French have captured the village of Mortiers after violent fighting, the war office announces. Between the Oise and the Serre the French maintain contact with the enemy. Between Sissons and Chateau Porcien, the French breaking up the enemy resistance, carried their line forward on a front of four and one-half miles to a depth of two miles at certain points through the positions prepared by the Germans in 1917.

The statement follows:

"During the night there was heavy artillery fighting between the Oise and the Serre. Contact was maintained with the enemy all along the front reached yesterday.

"On the south bank of the Serre river the French attacked the village of Mortiers, which fell into their hands after a violent fight in which they took 167 prisoners."

U. S. TROOPS REPULSE HEAVY ENEMY ATTACK

[ASSOCIATED PRESS TELEGRAM]

Washington, Oct. 26.—Heavy fighting on the Verdun front is described in General Pershing's communique for Friday. Strong German counter-attacks east of the Meuse were repulsed everywhere, except in the Belleu wood, where four successive assaults forced the partial withdrawal by the American lines were further advanced in the face of determined resistance.

The communique follows:

"Headquarters American Expedition ary Force, Oct. 25:

"On the Verdun front the battle has continued with violence east of the Meuse Late yesterday our troops enlarged their important gains south of the Consenvoye Damvillers road and occupied completely the Bois d Ormont. Today the enemy counterattacked repeatedly and with strong forces on the front from the Bois d'Ormont to the Bois d'Etrayes.

"Although supported by violent artillery and machine gun fire his attacks were repulsed with extremely heavy losses. Only in Bois Belleu did he succeed in slightly pushing back our line. At this point after three assaults had failed before the stubborn resistance of our troops, the fourth attack forced us to withdraw from the eastern part of the wood. Hostile forces which attempted to penetrate our positions northwest of the Bois-Belleu were driven back after a severe struggle lasting throughout the day.

"West of the Meuse our troops have advanced in the face of determined resistance on the slopes northwest of Grand Pre and have entered the southern portion of the Bois de Bourgoine."

U. S. AVIATORS WIN HONORS FROM BRITISH

[ASSOCIATED PRESS TELEGRAM]

Washington, Oct. 26.—Eleven enemy airplanes and one balloon were brought down by American aviators brigaded with the British from Sept. 9 to Sept. 22, the war department was informed today through a Royal Flying Corps communique. British distinguished service crosses were awarded to Lieutenants G. A. Vaughn; Brooklyn; L. J. Herbert, Cleveland; M. L. Campbell, Wakeman, O.; L. A. Hamilton, Pittsfield, Mass., and J. A. Keatting, Chicago.

Special mention is made in the communique of the bravery of Lieutenant Vaughn who, while on offensive patrol was engaged by about 15 enemy airplanes, one of which he dived on and shot down in flames. He then attacked another which was seen to fall after he followed it down to 2,000 feet.

Among other lieutenants mentioned as having brought down enemy planes is F. E. Luff, Cleveland Heights, O.

SUBS ARE INACTIVE; PART OF PEACE PLAN

[ASSOCIATED PRESS TELEGRAM]

London, Oct. 26.—German submarine activity reached a such a low state this week as to become almost negligible as a war measure, notwithstatnding that as many or more U-boats are lurking in the Atlantic and the Mediterranean. The British admiralty looks upon this situation as part of the German peace offensive.

INCREASED RATES FOR EXPRESS ARE APPROVED

[ASSOCIATED PRESS TELEGRAM]

Washington, Oct. 26.—The interstate commerce commission today approved proposed increases in express rates to become effective unless another method of giving the American Railway Express company added revenue is worked out with the railroad administration.

The commission suggested that a more scientific method of providing added revenue for the express company would be to change the contract with the railroad administration to give the express company a larger proportion of transportation charges.

In view of this suggestion it is probable that the railroad administration and the express company will take up negotiations which may result in cutting the proposed increase about in half. Meanwhile the increase will not go into effect.

twenty-two years, the greater part of that time being engaged in the nursery business.

For a number of years Mr. Fleming was a well known educator in Muskingum and Guernsey counties and has helped many a struggling youth to obtain an education. He was painstaking in his efforts and left an enviable record in the communities which he served.

Recorder Fleming was honored with an election by the Ohio Senate as its recording clerk and served from 1884 to 1886, and made a splendid official receiving numerous compliments for his excellent work.

Mr. Fleming was appointed county recorder by the board of commissioners to fill the term of the late Frank Dudgeon, but who died before taking office.

Since assuming the office Mr. Fleming has been painstaking and careful, and the recorder's office is a model of neatness and noted for the accuracy with which the business is dispatched. If elected to his second term Mr. Fleming promises the same conduct of his administration.

Vital force, nerve force, brain force, are the forces that make most for success. They depend very largely upon rich red blood, which depends as largely upon iron.

You want to get ahead, you want to do things—in a word, to accomplish something in your life.

Peptiron, a real iron tonic, will give you what you should have—an abundance of iron in your blood. It combines iron and nux, celery, pepsin and other valuable ingredients. It is in the form of chocolate-coated pills, pleasant to take, easily assimilated. Does not cause constipation.

SOLDIER INSURANCE.

October 6, 1917, is a historic date in the annals of this nation says Secretary McAdoo, because it marks the beginning of our soldier and sailor insurance, the best and wisest provision for soldiers and sailors and their dependents ever made by a nation in the history of the world.

The Liberty Loans have financed the work of our soldiers in Europe and our sailors on the seas. It has built ships and railroads and rifles and cannon and supplies and clothing and all that our soldiers and sailors have required to make them the great fighting forces that they are.

It should be remembered, too, that it has afforded and affords not only insurance for our injured men and for their dependents in case of death, but it is providing for the rehabilitation and re-education of those who by their wounds are rendered unable to pursue the ordinary vocations of life More than this it has given to the families and dependents of every soldier and sailor provision for their care and maintenance.

These beneficient provisions of the soldiers' and sailors' insurance law have reached into the remotest corners of the United States; in millions of homes they have brought peace and comfort and material assistance that was needed. In its 12 months' existence the War Risk Insurance Bureau has written nearly $35,000,000,000 of insurance, insuring more than 90 per cent of our fighting forces. It has paid more than 5,000 deat hand disability claims and is paying monthly installments of insurance on more than 9,000 death claims. It has paid out $200,000,000 in allowances and allotments to families and dependents of soldiers and sailors.

It has given to every soldier as he went into battle, every sailor on the submarine-infested seas the assurance that those dependent on him will be cared for in case of death or injury to him

Every buyer of War Savings Stamps and every subscriber to the Liberty Loans has a hand in the great work of soldier and sailor insurance and all the good that it accomplishes.

SAVING GASOLINE.

A striking example of the willingness of the public to respond to every request to conserve material needed by the army and navy is shown in the result of "gasolineless Sundays." The request of the fuel administration to automobile owners to discontinue Sunday driving until a reserve supply of gasoline could be built up effected a saving of more than 1,000,000 barrels which may be used for war purposes

The request to save gasoline was issued on September 1 and withdrawn on October 17. Thus in a period covering seven Sundays there was an average saving of about 143,000 barrels for each Sunday. While the request for further saving at this time is withdrawn, it is pointed out by the fuel administrator that if at the end of two weeks stocks are found to be dangerously low it may be necessary to again ask the public to put the voluntary plan into effect.

There has been no material increase in the stock of gasoline on hand east of California during the last month, notwithstanding the large amount saved. On September 16 there were 2,949,640 barrels of motor gasoline and 340,883 barrels of aviation gasoline in storage, and on October 14 the stocks on hand were 3,134,731 and 166,369 barrels, respectively. This is the entire reserve stock, including that stored at interior points.

While the peak load of domestic consumption is believed to be passing, the fuel administration is considering the question of further conservation should this become necessary. Meantime the public is urged to save gasoline during week days by eliminating every wasteful method and cutting down their average normal week-day consumption by at least 15 or 20 per cent.

"Republics Made While You Wait" will be one of the prominent signs of the times after the war.

MAKE THEM PAY.

It is a fundamental principle of life that people ought to pay for the damage they do. If this penalty is not exacted upon them, it encourages them to go on and commit other outrages.

Hence in considering German peace offers, it is absolutely necessary to hold them down to the principle of compensation for the damage they have done. They have ruthlessly and brutally laid waste and sacked the fair cities and fields of France, Belgium, Serbia, Roumania and Poland. They gained no military advantage thereby. They wilfully broke the laws of war in doing it. Their only purpose was to try to bulldoze the world into submission by making themselves as frightful and beastly as possible.

The trouble with the Germans is that up to now they have always made war a paying business proposition. Make war pay for war has been their motto. By jumping on other nations treacherously and unawares, they always expected to make war on the soil of their foes, so that the German's home country should never sustain any damage. Then they expect the cost of the war to be made up by the levying of indemnities, and by stealing valuable territory. They made the war of 1870 with France pay by a crushing indemnity, and by stealing the enormously valuable iron mines and other resources of Alsace-Lorraine.

Now if we insist that Germany pay the damages she has done, it will get it through the thick and bony heads of the Huns that the time when war could be made to pay as a national industry has gone by. The damages she has committed in the way of wicked destruction of life, she can never pay for in cash, though she will pay for them in the hatred of mankind she has excited. But at least she must pay her physical damage bills or we have lost the war.

LATEST IN STONE SHIPS.

(Baltimore American.)

The main objection to the stone ship is not that it will crack easy when subjected to a jolt or punch, but that it will rot more readily than wood or steel. The known fact is that salt water rots concrete. But, according to a statement accredited to H. J. Bunier, who is the supervisor of concrete ship construction at San Francisco for the emergency fleet, the construction of 42 concrete ships has been provided for, and it is in contemplation to construct this kind of ship as numerously and as rapidly as dependable contracts for them can be placed.

This is what the Pacific Coast representative of the Shipping Board says about the concrete ship—that it costs less by the deadweight tonnage than either the wooden or the steel ship, but that the time requisite to construction averages about the same for the wooden, the steel or the concrete ship. He says that the only thing the Shipping Board is worrying about is the lifetime of a stone ship; that while it lasts it is as strong as a steel ship.

It depends upon what the normal life of a concrete ship will be whether or not the rotting tendency is a fatal defect. If the time limit is five years that will probably be long enough to make the concrete vessels a valuable addition to the emergency fleet. Doubtless, a method of treatment will eventually be discovered that will render concrete impervious to the disintegrating influence of salt water.

REVIVING DRAMA.

(Ohio State Journal.)

"The Mikado" was produced in one of the big New York theatres a few nights ago, and there was a crowded house. The play was enthusastically enjoyed. It plainly indicates that the public love these Gilbert-Sullivan plays. They are more nearly allied with happy human nature and good sense than all the fussy stuff that now is forced upon the public appetite. Let us have "Pinafore," Patience," "The Pirates of Penzance," "The Trial by Jury" and all the others again. They strike the human vein in mankind, at the same time take a good aim at some of the abuses and foibles of modern society. They are as direct in their application to the foolishness and injustice of prevailing customs as Dickens' novels are to many wrongs and cruelties then and yet torturing human experience. We had "The Mikado" with "The Three Little Maids From School" here this summer, and it took like hot cakes on a winter morning.

GERMANY SHALL HAVE JUSTICE.

(Philadelphia Record.)

The suspicion that Germany is crying for mercy is not removed by the chancellor's declaration to the reichstag that the country will only have a peace of justice. Partly for its own pride, partly for the national pride of all the people, and partly to maintain the authority of the state, which already begins to be threatened by the anarchistic elements that are catching the contagion turned loose in Russia by the agents of the kaiser, the government feels obliged to talk as if it would be an equal party in the determination of the peace conditions. That the government really expects to have any influence in determining these conditions we doubt.

We believe the German people expect to get nothing but a peace of justice, and they are conscious that they cannot resist it. It is a ghastly mockery for the spokesman of the German government to demand a peace of justice rather than a peace of violence. When did any consideration of justice ever restrain Germany? When did Germany ever do a generous thing? Has not Germany declared that its right was measured by its might? Its might has broken down, and its rights have gone with it.

What right has Germany to ask for justice unless it does justice? If Germany wishes to know what sort of justice it will get, let it remember what sort of justice it gave France in 1871. Are you answered, Prince Maximilian? Because France was crushed, Germany extorted from it Alsace-Lorraine and a sum of money much greater than the whole cost of the war to Germany, and the German troops stayed in France till the last franc was paid.

Germany will get justice. It will give up some of its plunder and pay for the cost of war. France did not cause the war of 1870. Bismarck had to commit forgery in the second degree by altering a dispatch from Napoleon in order to bring about the war which he had planned. But Germany caused this war. Official and unofficial German evidence—not to go to other sources—proves that Germany caused the war. Two members of the reichstag have testified to the Potsdam conference of July 5, which determined on war. Germany has waged the war in defiance of the laws of God and man, and the treaty of Frankfort shows us what Germany regards as justice.

Germany will get justice. It will restore Alsace-Lorraine to France and contribute Posen and West Prussia to the new kingdom of Poland and East Prussia might as well go with them, for, as an island in a Polish sea, it will be of no use to Germany. Silesia and Schleswig may have to go, too. Germany made war on France twice in order to rob it of coal and iron lands, and it is justice to take the coal and iron lands away from Germany. Besides disgorging territory Germany will give up a very large sum in indemnities, and allied troops will occupy German territory until the last mark is paid. This is German justice; it is the way Germany treated France.

The chancellor talks of "not submitting to a peace of violence without a fight." Well, Germany has had the fight, has it not? Does it think it can do any more fighting than it is now doing? Prince Maximilian knows, and his imperial master knows, that if the Hohenzollerns try to keep their country in the war during another winter, after raising the hopes of the people for peace no matter what the terms are, they will be overwhelmed with a revolution.

DOWN-AND-OUTERS

(World Outlook.)

When the South End of Boston deteriorated and the congregation of the Morgan Memorial Church began to move away, Dr. Edgar G. Helms saw around him men and women kept from self-respecting work by drink or drugs. He made their problem his. Dr. Helms is pre-eminently practical. His "scientific reconstruction of bums" is not based on mere emotion. It is the result of study. It uses the most modern methods. Not only is there a mission to save men, but also a job at the Morgan Memorial Industries and a home at the Settlement to keep them saved. Their physical welfare is in charge of a medical expert. Their mental state is looked after by a psychologist who tries to fitevery man with a job.

The men are usually brought in from the streets half starved or intoxicated, and taken to the Seavey Settlement, where the doctor examines them for contagious diseases If they pass the test they are given a bath and clean bed clothes.

"There's lots of religion in a clean night-shirt," one of the assistants declared.

While they sleep, their clothong is fumigated, a process repeated for five successive nights. The dormitory for these "first-nighters" is a great room of double-decker beds.

In the morning come breakfast and a shave. Then those who wish may have a job at the Industries and a chance of staying in the Settlement to fight alcohol and make good. More than 500 destitute men are cared for each year. Of these more than 10 per cent are completely regenerated, practically double the average of most missions.

BLADENSBURG

Our schools opened Monday morning after one week's vacation.

John Howell of Newark was calling on friends here last week.

Mr. and Mrs. George Warman, Mr. and Mrs. Paul Turner of Mt. Vernon took supper Sunday evening with Mrs. Sarah Hull.

Frank Hall returned home Saturday from Kansas, where he spent several days with his brother.

Mr. and Mrs. Winters of Newark visited the latter's sister, Mrs. Cora Turner last week.

Mrs. George Mehl, visited over Sunday with her parents at Martinsburg.

John Berry is improving his house with a coat of paint

Mrs. Grace Horn and son Vern spent one day last week with the former's brother, Charles Darling near Mt. Vernon.

Mr. and Mrs. Chad Magill of Mt. Vernon spent Saturday night and Sunday with the latter's mother, Mrs. Minnie Harris.

Mr. and Mrs. J. C. Woods and children of Mt. Vernon spent one day last week with Mrs. Wood's parents.

Mrs. Robert Monck returned home Friday from Frederictown where she was caring for her daughter and family who have been very sick with grip.

Mr. and Mrs. Ross Rine spent Saturday and Sunday with the latter's parents at Rocky Fork.

Mr. and Mrs. Albert Taylor of Mt. Vernon spent Sunday with the former's father, Nathaniel Taylor.

Mr. and Mrs. Earl Norris spent Sunday with the former's parents.

"There should be absolute realism even in music," remarked the Wise Guy. "That's right," agreed the Sample Mug. "I know a fellow who sings coon songs till he's black in the face."

KISSANE PREFERS VIOLIN TO PASS

Instrument Said To Have Been Made By Famous Master Destroys Thought of Leave.

Mrs. Frank Kissane of North Pine street has two letters from her sons overseas. Donald, a well known local violinist who is doing night duty in a base hospital in France, was lucky enough to run into a Newark boy in one of the wards.

He came across an old violin and has been spending his off-duty time entertaining his comrades.

Parts of his letter written September 10th follow:

"Everything here runs along at about the same speed, not varying much from day to day. We five now have quite a few patients, mostly those that have been dismissed from Unit 26 and are well on the road to recovery.

"The other day I was going into one of the wards and I recognized a Newark boy, Allison. He was in the class of 1916 at Newark High school. He has a wound in the leg by a shrapnel.

"I am still corporal of the guard, and have charge of the wards at night. I have been using a violin which belongs to a French interpreter. He says he bought it from a Belgian refugee and claims that it is a Amona make, but who the maker was, he does not know. I doubt very much if it is one of the famous makes as the tone of it is only fair—rather sweet but small. There is a possibility of its being an Amati violin, though, as it is small like that and then the tone is similar to that make. The owner wouldn't set his price on it now until after I have used it awhile. But I won't give over 300 francs for it. He said it was worth a couple thousand dollars.

"I haven't been outside of Allery yet, except to go swimming in the Poane river. There is not much of interest in that town as it is only about 300 population. It has a few stores, a hotel (if you want to call it that), an old chateau of some count or countess, a church with a graveyard. There is a pretty good sized town about 15 kilometers from here—Chalon—with a population of nearly 30,000. But I have not yet been there. In fact, I haven't been any place. I am up practically 12 hours at night, and then I am very tired when day comes and generally sleep till 5 o'clock in the afternoon and go to work again at 7. Several days ago I made up my mind to get a little recreation and visit Verdun (not the famous battle city), and even had my pass made out, but I ran against this fiddle and instead of going to Verdun I played the 'fid' all afternoon."

His address is: Private Donald Kissane, Med. Dept., Base Hospital 25, A. E. F., A. P. O. 717.

Sergeant Hugh L. Kissane writes from Italy and says he had a chance to see what life in the front line trenches was like. His letter written September 20, reads:

"I received a bunch of letters from you when I returned to my company in Italy, and just got another a few days ago. After I was transferred away from my company, and just as I was getting ready to attend a school in gas instruction an order came in for all of us to return to our regiment. We were all glad to go back and had a wonderful trip through France and northern Italy, stopping at Tours, Lyons, Marseilles, Nice, Monte Carlo, Genoa, and other cities.

"We left our camp about a week ago, and since then have had quite a few experiences. Have had a chance to see what life is like in the front line trenches, but we are far away from the front now. Will tell you more about that in my next letter.

"I am sending a few views of some of the towns I visited on my trip.

"If you can get some Akron papers you can keep in touch with what we are doing over here as they carry quite a bit of news about the 332nd. If you see a Pathe picture with U. S. soldiers in Italy, you might be able to find me on it, as we had some movies taken of us by the Signal Corps.

His address is Sergeant H. Kissane, E Co., 332 Inf., Amer. Forces in Italy, A. P. O., 901.

KIRKERSVILLE

Chas. Kummer is now the owner of a nice big touring car.

Dr. S. R. Redhorn's family are all down with a severe case of the grip, except the oldest daughter, Florence.

Word was received here Wednesday evening that Sherman Wigg's wife was one of the Columbus victims of the flu.

Prof. H. J. Guinster and family are visiting relatives at Crooksville.

P. L. Scheidler came into town this week all shined up in a brand new touring car.

The flu in Kirkersville has not been able to get past the trenches that have been carefully constructed by the town marshal and health officer Charles Law. Bush, as he is better known, has been doing his duty in a very conscientious manner, regardless of the ill feeling that is found to arise. The result has been well worth favorable comment. The only fatalities were the boys who died away from home.

Did You Know

That the ducking-stool was in use at one time in England for the punishment of scolding wives? There were several varities of the ducking-stool but the one in commonest use consisted of a rough chair attached to the end of a beam which worked on a pivot moving on a post imbedded in the ground at the edge of the pond or river. The woman was placed in the chair with her arms drawn backward; a bar was placed across her back and in front of her elbows; another bar held her upright, and there were cords to tie her securely in. The executors of the punishment then grasped a chain at the opposite end and plunged the lady into the water.

WHY RUN-DOWN PALE EXHAUSTED WOMEN SHOULD TAKE IRON

"There can be no beautiful, healthy, rosy-cheeked, steady nerved women without iron. When the iron goes from the blood of women, the roses go from their cheeks—their charm and attractiveness depart. I always insist that my patients take organic iron—Nuxated Iron—(not metallic iron which often corrodes the stomach and does more harm than good). Nuxated Iron is easily assimilated, does not blacken nor injure the teeth nor upset the stomach. It will increase the strength and endurance of weak, nervous, irritable, careworn, haggard women in two weeks' time in many cases. I have used it in my own practice with most surprising results."—Ferdinand King, M.D., well known New York Physician and medical author. Purina Scratch Feed makes	247.49	142.11
Purina Chicken Chowder makes	182.05	282.55

WILL NOT CLOSE COLLEGE FOR FLU

Situation Is Well In Hand, Health Officer Asserts, and School Will Continue.

(Special to the Advocate.)

Granville, Oct. 26.—Dr. C. J. Loveless, health officer, called a conference last evening of the college authorities in regard to conditions in Denison as affected by the epidemic and after careful consideration from all angles, it was decided best to keep the college open. However, the requirements of the health board must be met implicitly from this time on—as Dr. Loveless explained to the state board there are no cases of flu in Shepardson college and only mild ones among the S. A. T. C. competently cared for in the hospital on the hill, and it seems the part of wisdom to keep the young people together in a place freer from infection than can be found elsewhere in the country, rather than to send them into infected cities where deaths by the hundreds are occurring, and over railroads and interurbans where the risk of infection is so great. In order to do this, however, there must be no gatherings at the postoffice and other points of interest in the village.

Three hundred men of the Denison Students' army have been inducted into military service and the government has authorized the induction of one hundred more. The men have been measured for their uniforms and it is hoped that the drilling on Broadway will soon take on a military aspect. The chef at the mess hall, William Day, was sent from Chicago by Samuel Brierly, who has furnished chefs for many college mess halls throughout the United States.

Plans for S. A. T. C. music at Denison, are announced by Professor K. H. Eschman, song leader, as having been authorized. There will be a military band, membership in which is restricted to S. A. T. C. men under the leadership of Prof. Eschman. The band will practice three hours each week, the necessary time to be taken from the academic schedule. In addition there is to be a song leader's class, membership in which is gained by application and tryouts, the purpose of which is to make leaders for informal singing here and ultimately in the army. It is planned to have later in the year joint meetings of all the sections in the War Issues course. When these occur there will be ten minutes of mass singing. It is possible that arrangements may be made later for conducting mass singing with drill. Informal singing will go on as heretofore.

Mrs. F. L. Ferguson, who has been visiting at the home of her son and daughter, Mr. and Mrs. Harold Lamson in Toledo for two weeks, has been quite ill with the Spanish influenza.

Charles B White, who sustained a painful injury to his knee while at Lake Brevoort last August, is able once more to walk up and down Mt. Parnassum a number of times daily.

The house formerly owned by Samuel Devenney, located just one door door south of the Baptist church on South Main street, has been thoroughly remodelled and redecorated by the present owners, Mr. and Mrs. Hubert Robinson, who are comfortably settled in the new home.

The regular meeting of the Travelers' club scheduled for Monday afternoon is postponed for the fourth time.

The members of the Denison and Shepardson faculties have planned an open air supper at Herrick's spring this evening, weather permitting.

Word has just been received of the death of Stuart Prescott, '17, who died of wounds received in action. No details are known yet.

Stuart McClelland, Denison, '12, is editor of the "Arklight," a weekly paper put out by the U. S. S. Arkansas. Mr. McClelland is chaplain of the Arkansas, and is one more example of the Denison man who is making good, even in such a place as a battleship, where opportunities are naturally scarce.

The joke is on one of our townsmen, who, starting for a Pennsylvania train at the Newark station, cautioned the driver of his car, that with forty minutes to the good, he should drive carefully over the slippery roads. They arrived at the station just in time to see the train for St. Louis pulling out, slowly but surely.

STRAW VOTE SHOWS COX IN LEAD HERE

The Cincinnati Enquirer has a number of men who are traveling over Ohio taking a straw vote. Today's totals are: Willis 5329, Cox 7369, changes from Democrat to Republican 713, from Republican to Democrat 808.

A vote taken at the American motor truck factory in West Newark showed: Willis 39, Cox 60; Newark telephone company, Willis 2, Cox 6; Arcade barber shop Willis 17, Cox 8; Newark public square Willis 18 Cox 37; Arcade hotel Willis 3, Cox 5; Newark Trust building Willis 14, Cox 24.

Eleven ballots from Newark were marked by Socialists who say they would vote for neither Willis nor Cox this year.

FEW MORE SALES WILL PUT LICKING IN VICTORY LIST

Complete returns from the seventeen banks and twenty-three postoffices of Licking county for the week ending October 24 show War Savings Stamp sales amounting to $30,453, of which sum the banks report $18,969, the postoffices $11,484. The grand total of W. S. S. sales in this county is $1,222,330, which is just $13,850 short of the county's quota.

A special effort is being made to reach the county's quota without further delay and all postmasters, bankers and other agents are requested to give W. S. S. one more boost in order to send Licking across the line.

The name of Laura Letherman is added to the Victory List today as a purchaser of 200 W. S. S.

October W. S. S. pledges should be redeemed promptly. Remember the price of War Savings Stamps will advance next Friday. Buy stamps Monday. A little team work now will put Licking county on the winning side.

Assistant Postmaster Farmer reports the sale of $1,883.30 in W. S. S. at the Newark postoffice yesterday

You never can tell. The under dog sometimes deserves all he gets.

EXPECT GOOD PROFIT FOR CITY HOSPITAL

The City Hospital's campaign to raise funds by collecting waste matter is nearly over. There are only a few sections of the city which the collecting trucks have not visited, and these will be taken care of within a few days.

The collections have so far been very satisfactory, and it is confidently expected that the remainder will be up to the standard. When the collection is weighed and paid for, there is no doubt that the net proceeds will be a splendid amount.

The officers asked publicity for an expression of their thanks and appreciation for the way the people have assisted them.

HYATT IS SIXTH TO DIE ABROAD

Gave Life for Country In Battle On Sept. 12, Message To Mother Says.

James Alden Hyatt of 519 Wehrle avenue, is the sixth Licking county man to give his life in action during the present war. He is the son of Mr. and Mrs. Alden Hyatt, of 519 Wehrle avenue, who received the official notification Wednesday evening from the government. The word from the war department stated Private Hyatt had been killed in action on September 12.

The deceased was 21 years old and had been employed at the Heisey Glass plant, previous to enlistment. He enlisted in Columbus a year ago in September and was with the 26th infantry, regular army, first division.

Surviving are the parents, and five brothers Thurman Hyatt of 617 Wehrle avenue, Earl of the home, Harry of Amsterdam, Claud of Mansfield and Allen of Lancaster.

The last letter received from Private Hyatt by his parents was written on September 8, at a Y. M. C. A. hut. He endeavored to tell something of the great fight in which he was taking part, but the letter had been carefully censored.

OHIO TAX LAWS

By Henry C. Keller.

At the coming election Ohio voters are again called upon to cast their vote to change our constitutional provision of uniform rate of tax, for all property, to classification of property for taxation.

If this proposal of classification should prevail, then the whole taxation problem of the State of Ohio will become an open blank book, the pages to be filled by the general assembly of Ohio. The members of the general assembly will be subjected to all the influence that can be brought to bear by organized interest, seeking to have laws passed so as to lay a less rate of tax on money, stocks, bonds and other classes of intangible property.

It is an evident fact that if some classes of property pay a less rate of tax, then some other property must pay a greater rate of tax.

It is conceded by all tax experts, and even by the advocates of classification that land would be placed in the class bearing the highest rate

But this will fall far harder on the home owner and owners of vacant lots in the cities than it will on the farmer, for the reason that our cities carry the greater portion of our bonded indebtedness and own by far the greater portion of intangeable property. Also the cities will be affected in their city or local tax as well as county and state tax, while the rural districts being comparatively free of debt will only be affected in thieur county and state tax.

Practically all advocates of the single tax system are in favor of this provision of classification for taxation purposes. Not because they are in favor of classification, but because it is a step in the right direction towards laying all tax on the land.

It seems to me at this time when our bonded indebtedness, local, county and national, have grown to the point of becoming a burden (and nationally it must continue to grow until this war is won) that the advocates of classification are ill advised to press this provision, when every dollar's worth of property should bear its just portion of taxes.

MORE THAN 200,000 FLU CASES REPORTED

[ASSOCIATED PRESS TELEGRAM]

Columbus, Oct. 26.—For the first time since Spanish influenza attained epidemic proportions in Ohio, encouraging reports are today being received from scattered communities indicating that the disease in those sections is waning. As a result nurses and physicians are being released for work in those localities where the epidemic is still in the early stages.

The general situation throughout the state, however, is showing no marked improvement. In fact, additional cases are being reported each day and a total of more than two hundred thousand are believed to have existed during the past three weeks. The death rate, Acting Health Commissioner J. E. Bauman believes, will increase rather than decrease for the next few days, although every measure is being taken to keep the mortality toll at a minimum, federal, state and local authorities co-operating in sending of medical and nursing aid to portions of the state needing them.

CAMP ACTIVITIES ARE RESUMED; FLU GONE

[ASSOCIATED PRESS TELEGRAM]

Camp Sherman, Chillicothe, Oct. 26—With influenza gone from the camp, and pneumonia present in the form of but a few serious cases, military activities have again fallen into their former routine.

The official resumption of amusement occurred last night at the Liberty theatre where a boxing and vaudeville entertainment were held. Services in the Y. M. C. A. and K. of C. buildings will be resumed Sunday morning.

Edward A. Starr, a conscientious objector, has been sentenced by court martial to Fort Leavenworth for a term of 15 years for disobedience to an officer.

ITALIAN DRIVE MAY MEAN MUCH

Movement Already Threatens To Divide Austrian Armies Defending Lower Piave Regions.

(Compiled from A. P. Dispatches)

While the British, French and Americans are slowly breaking their way through the stubborn German defense along the line south of Valenciennes, the attention of the allied world is directed, for the moment at least, to the Italian front, where General Diaz seems to have started a major operation.

Fighting on a large scale appears to have begun on Thursday when the Austrian official statement reported heavy artillery fighting from the Brenta river to the Montello plateau. It was reported yesterday that Italian, British and French forces attacked between the Brenta and Piave rivers and advanced over rough country for a considerable distance. At the same time the allies moved ahead and captured islands in the Piave above the Montello plateau. This stroke was aimed at the angle in the Austrian line which runs from the Adriatic along the Piave until it reaches the mountains and then turns to the west. If the allied attack makes material progress the Austrian armies on the lowlands near the sea and those holding the front in the mountainous sector may be divided. The number of prisoners taken, 3,000, would seem to indicate fighting of a serious nature. It is too early to determine whether General Diaz has really begun an offensive or is merely directing an operation which is the nature of a diversion. It may be that the morale of the Austrian army, which has repeatedly been reported to be very low, will be determined by the fighting during the next few days.

British troops are continuing their blow at the German line south of the bend of the Schedlt above Valenciennes.

Progress there has been comparatively slow but it would appear that the railroad between Quesnoy and Valenciennes has been crossed and that the British are in the outskirts of Quesnoy. There is an apparent effort on the part of Field Marshal Haig to avoid a direct assault against the Normal forest, just to the south, where the Germans are solidly entrenched and have countless machine guns and light guns in position. Northeast of Valenciennes the British and French are advancing toward the Schedlt.

The French on the Serre Oise front have continued their attack on the northern side of the line They have gained at important points but the Germans are holding their front very strongly.

Southwest of Damvillers, on the Meuse sector, American forces have captured Hill 360, a height which is important for observation purposes, and which was strongly defended by the Germans. Near Grand Pre, the Americans have forged still further ahead and appear to be forming quite a large pocket in the German lines on the eastern side of the Argonne forest. American heavy artillery has been pounding German concentration points during the past couple of days.

British divisions in Mesopotamia have resumed their offensive against the Turks. Fighting in that region is next to impossible during the heat of the summer. Now that autumn has come it may be expected that there will be an effort to form a junction between the forces along the Tigris and those operating north and east of Damascus.

COUNTY BOARD COMPLETES TASK

Questionnaires Being Mailed To County Registrants At Rate of 185 Every Day.

The local board for Licking county has completed the classification of the 19-36 year old group of registrants of the class of Sept. 12 and is mailing questionnaires to the 18, 37-45 year old group at the rate of 185 per day.

On account of the influenza situation it is not advisable for the legal advisory board to hold its meetings in the court house at Newark.

Judge J. M. Swartz, chairman of the legal advisory board for Licking county, has appointed associate legal advisers throughout the county who will assist registrants in their respective communities in filling out and certifying their claims. The local board at Granville suggests that all registrants under its jurisdiction apply to their local legal advisors for advise and assistance in filling out their questionnaires.

The list of advisors for Licking county is given below:

H. W. Deming, Granville; F. C. Hite, Utica; Fred S. Sperry, Utica; S. E. Besse, Summit Station; C. L. McCcracken, Johnstown; Geo. B. Upham, Johnstown; Norman G. Buxton, Johnstown; W. W. AGRICULTURAL BOARD ELECTS DIRECTORS

The annual election of the Licking County Agricultural society is being held today in the secretary's office at the court house. Four directors are to be elected and there are eight candidates, W. J. Tharp of Pataskala; J. C. Morrison of Madison township, Alonzo McDowell of Mary Ann township, R. C. Adams of Union township, W. B Parker of Newton township, Charles L. Poundstone of Hopewell township, S. A. Mears of Hanover, and J. W. Colville of Eden township. Four directors are to be chosen who will serve for three years each. Messrs Tharp, Morrison and Mears are present members of the board

NAVY MAN'S LETTERS ARRIVE IN BUNCHES

Mr. and Mrs O. M. Worth of North Fourth street have received a letter from their son Thomas Worth, who is in the navy and from whom the family had not heard since June 2.

Fearful that he might have been lost, the family had taken up the matter with Washington officials, but yesterday numerous letters were received from him. He was on the U. S. S. Buffalo for a time, and is now in European waters, where he expects to remain.

LISTED AS MISSING BUT IS IN HOSPITAL

In today's casualty lists in the marine corps announcements the name of Private Harry Johns of 221 West Main street appears as "missing in action."

This evidently is a mistake as Mrs. Johns had a letter from her son Harry Johns, written on September 28, stating he was in an English hospital at Portsmouth, Eng., and that the leaders in his left arm had been cut by the shell and that two fingers were still. He stated he expected to be sent to this country for treatment.

TIN AND LEAD FOIL NEEDED BY UNCLE SAM

Red Cross Here is Collecting Material Heretofore Wasted—Tin Cans Cannot be Used.

Although the campaign for saving tin in its various forms has just been launched, the results are markedly apparent. Considerable tin foil, lead foil combination foil, pewter and some platinum have been delivered to the Red Cross society headquarters in Hudson avenue.

The committee in charge wishes the public to understand that tin cans cannot be used. There isn't enough tin on them to warrant the work of melting it off the iron which it covers.

Red Cross headquarters will take care of all donations.

Tinfoil on chocolates, chewing gum, cigarettes and tobacco which have been thrown away, can be saved and taken to headquarters. Collapsible tubes emptied of salve, paint, shaving cream, tooth pastes, etc., can be used and is being eagerly sought by the government.

A dangerous rasping cough and sore throat can be quickly relieved by Kemp's Balsam. A few cents invested in a bottle will amply repay you when you have occasion to use. Used by thousands. Satisfaction guaranteed. Sold by druggists everywhere.

How To Avoid INFLUENZA

Nothing you can do will so effectually protect you against the Influenza or Grippe epidemic as keeping your organs of digestion and elimination active and your system free from poisonous accumulations.

Doctors and health authorities everywhere are warning people of the danger of constipation, and advising, and urging everyone to see that the bowels and other eliminative organs act freely and regularly.

Ordinary laxatives, purges and cathartics, salts, oils, calomel and the like, are good enough to clean out the system, but do not strengthen the weakened organs; they do not build up vitality.

Why don't you begin right today to overcome constipation and get your system in such shape that you can feel reasonably sure of resisting disease. You can do so if you will just get a 25c. box of Nature's Remedy (NR Tablets) and take one each night for a while.

NR Tablets do much more than merely cause pleasant, easy bowel action. This medicine acts upon the digestive as well as eliminative organs, promotes good digestion, causes the body to get the nourishment from all the food you eat, gives you a good, hearty appetite, strengthens the liver, overcomes biliousness, regulates kidney and bowel action and gives the whole body a thorough cleaning out. This accomplished you will not have to take medicine every day. An occasional NR Tablet will keep your body in condition and you can always feel your best. Sold and recommended by druggists.

OHIO FEDERATION OF WOMEN'S CLUBS

The new official directory has been mailed to every club president. It must be remembered that this directory is the property of the club and every member should have access to it if she so desires.

Undoubtedly mistakes will be found, but the task of compiling the book is a tremendous one. The request was made that the names of the officers of the clubs be typewritten. This request was not heeded and in many instances the writing was illegible. In case a club withdraws from the Federation, the courteous proceeding would be to notify the corresponding secretary.

A lesson many club women need to learn if they would help to make our organization efficient, is that of answering letters promptly. It took three, and in a few cases four, appeals to secure the required information necessary to issue a directory in any measure approaching accuracy. And we regretfully add that some have never answered.

The following telegram to Mrs. Josiah Evans Cowles outlines a new task for the clubwomen of the country, and Ohio women will not fail to help carry into effect this important work:

"After conference with allied countries, I consider it important to present to American people new conservation message. Week October twenty-eighth is designed as conservation week. Food Administration will circulate to all homes new Home Cards setting forth features of this conservation message. If all state presidents within the Federation were to receive message from you asking for their co-operation, and they in turn were to send the request to the clubs within the states, we might expect a response commensurate with their expressed co-operation at the time of the voluntary ration. Will you ask your state presidents to communicate with Federal Food Administration of their state, to whom they may look for assistance in program of publicity? We suggest reading of Home Card at the club meeting nearest conservation Sunday, October twenty seventh.

(Signed) "Herbert Hoover."

The work of the committee conducting the educational propaganda of the United War Work Campaign has been greatly impeded by the ban placed upon public meetings, but this should not prevent the chairman of counties making plans for speakers appearing at every gathering as soon as such are permitted.

Have you organized your mothers, sisters and wives into a helpful group which meets regularly at a time when those who need your comfort and encouragement can meet with you? If not, do so at once. Every community should have such an organization, and it is the province of the club women to do this. Write to Mrs Robert Morris, Toledo, the National President of War Mothers' Association, and she will tell you just how to proceed and the purpose of the organization

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "loggy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. 10c and 25c a box. All druggists.

Sweet potatoes 1 60@1 65 per hamper.

Chicago Grain and Provisions.
(ASSOCIATED PRESS TELEGRAM)

Chicago, Oct 26.—Reports of an offer by Turkey amounting to a surrender weakened corn market today after an early ... ance The initial appearance of strength was due to wet weather, which appeared likely to bring about a decrease of the crop movement. Corn prices, which ranged from ¼c to 1½c higher with November 1.27⅝ to 1.28 and December 1.23 to 1.23½ were followed by a decline to well below yesterday's finish.

Oats were governed by the same factors as corn. After opening ½c off to ⅛c up, with November 70⅝ to 71c, a general sag took place.

Wall Street.

New York, Oct. 26.—The trend of prices was distinctly upward in the first half hour of today's market, speculative issues again featuring the advance. Mexican Petroleum overshadowed all other shares at a gain of 7½ points, but Bethlehem and Crucible Steels averaged one point advances with Studebaker and American Smelting, while U. S. Steel rose a large fraction. Further accumulation of investment rails was observed, Southern Pacific and Reading reflecting substantial buying.

Short covering was an important factor in the brief period of trading on the stock exchange today. Money restrictions again served to keep dealings within moderate limits but speculative shares were stronger an dmore active than standard issues. Mexican Petroleum made an extreme advance of 13 points and Royal Dutch rose 14, South Porto Rico sugar gaining 15 points on its first sale in several weeks. General Motors rose five points and Studebaker three points. Other notable features included Southern Pacific, Union Pacific, Marine preferred, Steels, Coppers, Texas company and People's Gas at gains of 1 to 3 points. The closing was strong. Sales approximated 300,000 shares.

The family of Mr. and Mrs. C. F. Walton who has been seriously ill with influenza are recovering. Miss Ethel Walton who has been ill with typhoid fever at the City Hospital, was removed to the home of her aunt, Mrs. Frank Wade, 30 Arch street.

Not Originally Military Title.
General, the noun, and the adjective general, the antonym of particular, go back to the Latin generalis, meaning belonging to a race or kind, and itself tracing to genus genera, from gigners, to beget. Generalis in Caesar's and Pompey's day had nothing to do with the army; the Roman general was an imperator. The title general primarily means an officer holding a general command.

Gift to the Garbage Children.
Bessie on her birthday received a new doll. Her old one she proposed discarding, so she said: "I think, mamma, I'll give it to the garbage man. He can take it to the garbage woman and she can fix it up for the little garbage children to play with."—San Francisco Chronicle.

Call for Pity.
There are people who go about the world looking out for slights; and they are necessarily miserable, for they find them at every turn, especially the imaginary ones. One has the same pity for such men as for the very poor. They are the morally illiterate. They have had no real education, for they have never learned how to live.

Chinese Wedding Presents.
In social circles of the celestial empire the family of the bridegroom makes presents to the family of the bride of various articles a few days before the day fixed for the marriage. The presents generally consist of food, the leg and foot of a pig, the leg of a goat, eight small cakes of bread, eight torches, three pairs of large red candles, a quantity of vermicelli, and several bunches of firecrackers.

Put Strangers Above Relations.
It was a vizier, Ibn Al-Amid, who lived in the eleventh century, who wrote this strangely modern advice: "Choose your friends among strangers, and take not your near relations into favor. Relations are like scorpions, or even more noxious."

Slick Confidence Men.
"Some of them Kay See confidence men are pretty slick, ain't they, Lester?" asked old Riley Rezzidew. "Yes, siree!" replied Lester Lazzenberry, who was just back from the Big Burg. "They're so durn slick they'd pick the pockets of a billiard table if you didn't watch 'em every minute."—Kansas City Star.

Encouragement.
Dey so many folks 'magin' dey's all in wen all dey needs is a li'l 'courage-ment. Mah folks turnt a ole mule loose in de wood lot t' die en she got'a a hawnet's nes 'en to' down fo' panels o' fence.—Louisville Courier-Journal.

Teaching Canaries to Sing Tune.
Canaries may be taught to sing a tune, such as, "A Life on the Ocean Wave," by repeatedly singing to them in falsetto, or even to speak a few words. Once in a while (though rarely) a female canary turns out a fine singer.

Tempting.
If an apple dumpling doesn't want to be eaten, why does it smear itself all over with that delicious sauce and sit there smilin' up at you with a look of paradise upon its cherubic face?—Baltimore Sun.

Speed of Bullet.
A rifle bullet covers about two miles in five seconds, while sound travels the same distance in a shade more than nine and one-half seconds, so it is easy to understand why the bullet strikes before the report of the rifle is heard.

"Time is money," quoted the Wise Guy. "Yes, especially when you borrow on your watch at a pawnbroker's rate of interest," added the Simple Mug.

FARMER HURT WHEN TEAM RUNS AWAY

The condition of Elmer Dustheimer, 60, of north of Linnville, who was seriously injured in a runaway accident, Thursday, is reported as improving.

Mr. Dustheimer with his son Wilbur was loading fence posts. The horses became frightened and started to run. Mr. Dustheimer was thrown off and the hub of the wheel caught him in the back. He suffered a fractured arm and an ugly wound in the back.

CRITICOS RETURNS TO ARMY ORDNANCE DEPT.

Word has been received by the local draft board to induct John Criticos into service under competent orders. Criticos was sent to Camp Sherman for general service, but was rejected and discharged owing to physical disability. He then went to the camp and worked in a canteen but was desirous of again entering the army.

He tried every means and was finally accepted as a limited service man. He has been ordered to report to the Chief of Ordnance at Washington in the administration division of the engineering section.

[ASSOCIATED PRESS TELEGRAM]

Washington, Oct. 26.—Army training eliminate from their schedules all work that can be done after the men arrive overseas, as one of the moves of the camp commanders have been ordered to war department to speed up the enlarged war program and overcome delays resulting from interference with draft calls by influenza.

CHARGE FOREIGNER ABUSES HORSES

Sheriff Swank came across a man in the Granville road yesterday who was intoxicated and abusing his team hauling a load of hay. He is a Roumanian and gave his name os Joe Gragmier. Sheriff Swank put the team up at a nearby fram and brought Gragmier to town. Later an affidavit was sworn to by Deputy Sheriff Frank Brown and Graghier was placed in jail. The case will be heard Monday in Justice Jones' court.

Lura Marie Roe.
Lura Marie, only daughter of Mr. and Mrs. D .B. Bell, passed away at their home in North Sixth street, Wednesday morning at 11:45. Her death resulted from an attack of pneumonia following several days illness of influenza. She was just in the morning of life, being 22 years and five months of age. On January 30 of the present year she was united in marriage to Clarence O. Roe, their marriage taking place in the First M. E. church, with a beautiful and impressive service. She was a faithful member of this church since very early girlhood. Of a singular sweet and sunny disposition, she attracted to herself a large circle of friends. "None knew her but to love her." Her life was so unselfish. She found her greatest joy when making others happy. Though her years were few, she will linger long in the memory of those whose privilege it was to call her "friend."

Besides a number of other relatives and friends she leaves to mourn their loss in the immediate home circle her loving husband and her devoted mother and father. Short funeral services were held at her late home on Friday afternoon at 3 o'clock, conducted by her pastor, Dr. L. C. Sparks. Her remains were laid to rest in beautiful Cedar Hill.

"In the cold moist earth we laid her,
When the forest cast the leaf."
And we wept that one so lovely
Should have a life so brief.

Deaf to the Cry of the World's Hungry

The Booze Barons seek to continue their work of making widows and orphans—filling poorhouses, jails and penitentiaries—making more hunger and poverty.

They seek to do this in the face of a world's war, with America and America's allies needing every pound of grain the country can produce.

It is an amazing spectacle, a monstrous libel on justice.

Women and children overseas with their skinny arms outstretched to Heaven, crying for bread!

DEATH IS FACED BRAVELY IN CAMP

Former Newark Man Has Higher Regard for American Soldier After Passing Through Epidemic.

American soldiers who have succumbed to the ravages of Spanish influenza in American cantonments, have met death bravely and fearlessly, according to Don D Tullis, former pastor of the Second Presbyterian church here, who is director of religious work in the camp at Fort Leaven worth, Kas. These victims of the great war, died heroes though the glamor and excitement of war did not attend their going out. Tullis declares and because they died in camp their sacrifice for their country was none the less heroic.

The Newark man has been deeply impressed by the ravages of the epidemic and his regard for the young Americans has been enhanced by the manner in which these unsung heroes have met their fate. He likens the epidemic to a great battle with its dead and wounded. He says,

"I have witnessed a great battle unlike the Marne, Chateau Thierry, Verdun or the Aisne there was no deafening roar of monster cannon; no war plane dropped its deadly bombs about us, no bugle sounded the advance. It was a great silent battle. In it no hero received the war cross and none was mentioned for his chivalry. There was no supreme moment when one might enter the open door to world fame and have his name engraven on history's pages. There were no swords unsheathed, no bayonets fixed, no iron dogs of war unleashed. And yet there were men falling by hundreds all about me. There was the horror and the sorrow and the suffering of a mighty world battle without the enthusiasm and the halo an dthe glory of the sacrifice.

"It was the battle of disease. Like an unprincipled heather horde this powerful plague swept down upon the camp where were being trained the sons of America. Here and there they fell before our very eyes. Some wounded but slightly, and destined to return to the ranks after a few days in a hospital ward; others wounded sore, with the mark of death clearly stamped upon their faces from the moment of their fall. I can never forget their struggle. Bravely prayerfully, heroically they battled with the foe. Through the long night watches, without the hovering faces of the ones they loved, grasping any hand outstretched to them, they fought and lost and passed with a smile into the silence of the grave. Great strong men they were, men whom we had served in the trenches huts.

"They had laughed with us, hoped with us and lived with us. While history will not record their heroism those of us privileged to serve them at the crossing of the Great Divide will never forget the conflict. Brave soldiers never lived and served and died. Never a complaint, never a cry; like men they passed "over the top" into the Valley of the Great Shadow. I have seen them go, at morning noon and in the still watches of the night, and it is ever the same. No dread of death, no fear of the future, no crying out at the relentlessness of fate.

"O you whose sons have been counted among the missing in this great conflict you have a heritage that cannot be taken from you a heritage of noble sacrifice and heroic death that equals that of any battle field of earth. There was no home atmosphere to ease the troubled brain no mother's hand to smooth the weary brow, no drapery of love to shut out the sounds of earth; just the bare tent walls, the simple soldier cot, and the ever faithful soldier helper with the occasional visit of the overworked nurse. Yet as they passed out into the Unknown they smiled and went with unwavering faith. What ambitions they have revealed in that last hour; what hidden secrets of the heart, what words of good cheer they have left with us for the home folk and the friends they leave behind. And other heroes there have been. Ambulance drivers, stretcher bearers, physicians, nurses and the few loved ones who have bridged the distance of the weary miles and arrived in time to see the "lights go out." What uncrowned heroes these have been. I have seen them, mothers, fathers, wives, sweethearts, silently, bravely, standing sentinel; waiting for the moment of his unmooring. Refusing to give in to grief for fear their tears might disturb those who were lying near, hovering also between life and death.

"But yesterday I met outside the Post Hospital an aged couple, parents of a lad who had died among the first in this camp. What were they doing here? Their son was dead and buried; they knew no one else in the Post; They were strolling together over the ground forever sacred to them, where their only son passed the last three months of his life. Yes, I have seen a great battle. But today the sun has risen on a peaceful scene. A few of the wounded are yet to die. But the battle is over. We have lost much, we have gained infinitely more. And among these gains there are few greater than this. America has learned anew that its destiny is forever secure in the keeping of its heroes in arms, these men who living or dying are never other than Americans; are never less than men.

Don D. Tullis.

IS DELEGATE TO CHURCH MEETING

Rev. G. B. Schmitt Will Attend Deliberations of Body to Merge Lutheran Churches.

Newark members of the various Lutheran church bodies are interested in the proposed merger of these churches into one body to be called the United Lutheran Church in America. Rev. George Bohon Schmitt pastor of St. Pauls Lutheran church, is a delegate to the congress which will be held in New York, Nov. 14.

Representatives of more than three three quarters of a million of confirmed Lutherans will meet formally to organize the United Lutheran Church in America. The Lutheran church is a very old one in this country dating back to 1619 in Canada, 1638 in Pennsylvania, and 1643 in Manhattan, but its members are of such a liberty loving and congregational type and their original blood has come from so many European nationalities that they have been slow to see the merits of centralized organization.

The first Synod was organized in 1748, and new Synods have been forming rapidly ever since. A Synod represents the congregations of a State or part of a State. A general body covering the United States was organized in 1820, another in 1867, and a third in 1886. These are the three general bodies now coming together. For the last year and a half they have been carefully preparing for the coming merger, and next month will see all Synods of the United States and Canada joined together.

Every one of these Synods and the three general bodies The General Council of the Evangelical Lutheran Church in North America. The General Synod of the Lutheran Church in the United States and The United Synod of the Evangelical Lutheran Church in the South have voted singly and severally in favor of the move.

On Tuesday, November 12, each of the three bodies will meet separately in New York. The general synod will meet in St. James's church at Madison Avenue and 73rd street the General Council in Holy Trinity church Central Park West and 65th street the United Synod in the Church of the Advent, Broadway and 93rd street. These bodies will occupy a day or a day and a half in winding up their own affairs. On Thursday they will enter Holy Trinity church in procession each body by itself, and preceded by the Ways and Means Committee, and the first preliminary legal steps toward effecting a merger will be taken. In the evening there will be a religious service with Holy Communion when the Rev Henry Eyster Jacobs, Dean of the Mt Airy seminary at Philadelphia and Nestor of the Lutheran church in America, will preach the sermon. On the following morning the body will proceed to organize for business and the merger will be consummated. On Sunday afternoon a great central ratification and thanksgiving mass meeting is to be held in the Hippodrome.

A complete Constitution for the government of the new body and of all its boards has been prepared and has been adopted by all the Synods.

The property value of the consolidated church is over $53,000,000 with an annual expenditure for local up-keep and salaries of between six and seven millions of dollars, and an annual expenditure for benevolence and missions of about a million and a half dollars.

NEWARK MARINE SEES TWO OFFICERS FALL

Company Takes Part in Big Push, Driving Foe Back for Ten Miles.

Harley Bourne, son of Mrs. George Bourne of 312 West Locust street, who is with the marines writes an interesting letter telling that his commander had been killed and that the second in command had been shot through the arm in a recent engagement.

Private Bourne is with the 81st company, Sixth machine gun battalion, U. S. Marines in France. In his letter he says: "I am in perfect health and just came out of another big drive. We drove the Huns back about ten miles. I think they have all the fight taken out of them. We have not had much sunshine here of late as it has rained every day.

"I just had dinner, consisting of steak, tomatoes, turnips, bread and butter, and coffee. How badly was Leland Stevenson injured? I am going to look him up if he is any place nearby. In the recent drive our company commander was killed and the second in command took the company and was shot in the arm on the last drive. I am at headquarters now and am orderly for the company commander."

READS IN PARIS PAPER OF FRIEND'S WOUND

Corporal Edgar F. Albright of Battery C, 134th F. A. A. E. F., has written a letter to his former employers at the Advocate. He stated that in looking over the Paris edition of the New York Herald he saw the name of Lieutenant Leland Stevenson.

"I would also like to see Dr. Lewis, but don't suppose I can. I am but a few miles from where he is and have been there twice. I read the letter written by Frank Johnson some time ago. One of the boys received it.

"I have become accustomed to some very strange things since coming into the army. If I were not married I think I would become accustomed to the strange, but friendly ways of some of these good looking French girls.

"We are having rain every day but in this camp there is no mud. The ground is sand for three feet and soaks up all the water that falls."

FRIEND'S ADVICE SAVED MRS. J. GROCE'S LIFE

"Given Up by Relatives and Friends, Dr. Parker's Treatment Saved My Life."

Statement of Mrs J Groce 719 Walnut street, Nelsonville O., 66 years of age.

"I feel I owe my life to Dr. Parker's Treatment for Indigestion and Constipation. I doctored with several doctors who claimed that the nerve system of my stomach had broken down, and for several months I was unable to leave my room. I could eat no solid foods, lived on beef tea and water off of burnt bread. The gas on my stomach would cause spells of belching that would last an hour and everything soured on my stomach. I was given up to die by my family and friends, when a friend recommended Dr Parker's Treatment. One box gave me great relief and three boxes cured me. I can now eat solid food and am doing all my own work.

Dr. Parker's Treatment has certainly done wonders for me."

I know my treatment will do for you, who suffer with Indigestion and Constipation, just what it did for Mrs Groce. It is the result of thirty five years study, practice and experience and I know it to be the best medicine ever prepared.

Franklin Vermilion of Company K, 333rd infantry, with the 84th division, has written a letter while on the ocean enroute to France. He stated he did not get the least bit seasick, "due, probably to the fact that I was always swinging around in tree tops when I was a kid."

He also said he understood that good reports were coming from the front "and I think when the 84th lands you will hear some more. We, the same as all other soldiers, must make great sacrifices. But we are not the only ones as all are making sacrifices but will feel well repaid."

BRITISH RENEW ITALIAN DRIVE; FRENCH SHATTER ENEMY LINE

Renewed Activity on Every Front Results In Success For Arms of Allies—Argonne Line May Be Turned

[ASSOCIATED PRESS TELEGRAM]

With the American Forces, Northwest of Verdun, Oct. 28.—(3 p. m.)—American long-range guns this afternoon began firing on Longuyon. The town of Longuyon is 23 miles northeast of Verdun. The American long-range fire is being directed against the vital Voie-de-Rocade, on the railway line paralleling the front. The Germans are depending on this line to shift their troops and supplies from one point to another.

GERMANS AGAIN RETREAT

[ASSOCIATED PRESS TELEGRAM]

With the French Armies in France, Oct. 28.—(Reuters)—General Debeney's army has won a signal victory.

The German forces holding the Serre-Oise front are in retreat and the whole German line between Chateau Porcien and the Argonne is in danger of being turned.

Persistent attacks by General Debeney's indefatigable infantry has broken the river line, which is the last water-line commanded by the enemy between the present front and the Meuse.

VIENNA CLAIMS SUCCESS

[ASSOCIATED PRESS TELEGRAM]

Vienna (via London), Sunday, Oct. 27.—Between the Brenta and the Piave intense fighting continued throughout Sunday, according to the official statement today from Austro-Hungarian headquarters. The Italians were driven back in the region of Col Caprile.

ATTACK IN ITALY RESUMED

[ASSOCIATED PRESS TELEGRAM]

London, Oct. 28.—The British Tenth army today resumed its attack against the Austro-Hungarian positions on the Italian front, the war office announced this afternoon. The attack is proceeding satisfactorily.

British troops in their offensive on the Austro-Italian front up to last night had captured more than 5600 prisoners, according to an official statement issued today by the war office. The British also captured 29 guns, including six 9-inch howitzers.

The British advancing in Mesopotamia have cut the road from Sherghert to Mosul, one of the principal Turkish lines of communication. This probably will force the Turks to fall back on Mosul.

British troops, Sunday, repulsed a determined German effort to drive them from Famars, south of Valenciennes, Field Marshal Haig reports today. Many Germans were killed in street fighting in the village.

On the borders of the Mormal forest, south of Valenciennes and north of the Raismes forest, north of Valenciennes, the British have improved their positions slightly.

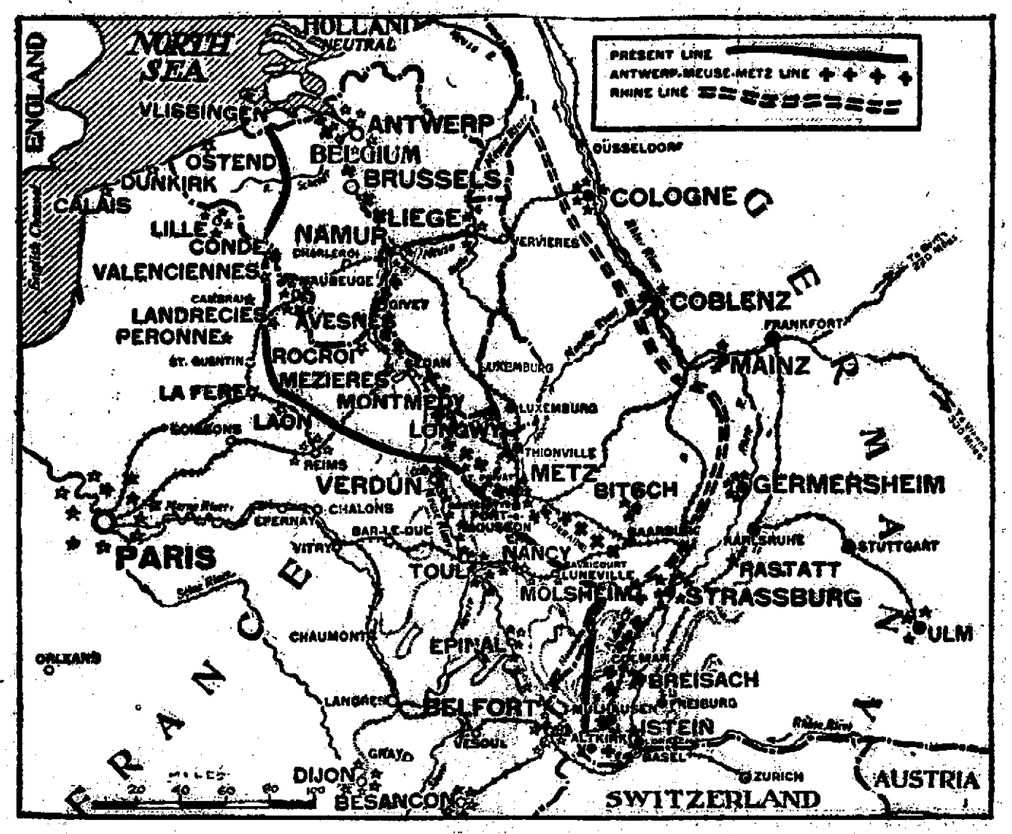

YANKEES TAKE BELLEU WOOD.

[ASSOCIATED PRESS TELEGRAM]

With the American Army, Northwest of Verdun, Oct. 28.—Belleu wood, east of the Meuse, is finally and completely in American hands after strenous fighting for several days.

The wood was taken in a successful local attack late Sunday. Fighting is still taking place in the eastern portion of Ormont wood, in the same region.

GERMANS FALLING BACK TO GREAT DEFENSE LINE ALONG MEUSE

It is a reasonable presumption that before the present campaign closes owing to winter weather, the Germans will be back on their great defense line along the Meuse through Dinant and Namur, thence north to the east of Brussels, with the right flank anchored on the fortifications of Antwerp and the Scheldt river to the Dutch border. South and southeast of Metz the Vosges mountains, with the modern forts of Bitsch, Molsheim and Strassburg will be depended upon before the Rhine line is reached.

FLU TOLL IS 12 SINCE SATURDAY

Health Records Show New Cases Are Not Increasing —Ministers Make Protest.

After the first indication that the number of new cases of influenza being reported daily had decreased, the percentage seems to have come to a stand still. The report to the health department on the epidemic remain about the same as Saturday, although over Sunday many deaths were reported.

The ministers of the city have endorsed a resolution protesting against the opening of the saloons, while the ban remains on in other instances.

The number of deaths over Sunday number 12, and are as follows: Gladys Wheeler, 1, 99 Brennan street, influenza; Guy W. Aldridge, 23, 39 North Williams street, influenza: Mrs. Thomas Kincaid, 50, 250 North Fourth street bronchial pneumonia; Mrs. James P. Cutter, 122 Burt avenue, influenza; Nora Debevoise, 15, 229 Fourteenth street, influenza; Jack Welsh, City Hospital, heart trouble following influenza; Charles Marshall Cosgrove, 2, North avenue, influenza and pneumonia; Arthur B. Wheeler, 39 Madison township, influenza; Ellen Mary Barch, 3 years, 111 North street, influenza; Harry E. Rose, 40, 162 Jefferson street, influenza; John Kussart, 33, Cherry street, influenza; Anna Cedars 6, Poplar avenue, influenza.

SOLDIER DIES OF MALADY IN CAMP

Another Licking county boy, Virgil Hite, 24, of Pataskala, died at Camp Sherman Saturday following influenza and pneumonia. He is the son of Mr. and Mrs. Samuel Hite of Pataskala, who survive with six brothers and six sisters.

He has been at Camp Sherman since July. Funeral services will be held at the home Tuesday at 12:30 o'clock and will be private.

BABY DIES; MOTHER AND SISTER ARE ILL

GERMANY'S ANSWER TO WILSON.

Copenhagen, Oct. 28.—Germany's answer to President Wilson's latest communication says:

"The German government has taken cognizance of the answer of the president of the United States.

"The president is aware of the far-reaching changes which have been carried out and are being carried out in the German constitutional structure, and that peace negotiations are being conducted by a people's government in whose hands rests, both actually and constitutionally, the power to make the deciding conclusions.

"The military powers are also subject to it.

"The German government now awaits proposals for an armistice, which shall be the first step toward a just peace, as the president has described it in his proclamation.

LUDENDORFF HAS SCRAP WITH MAX

State Department Advices Tell of Disagreement Which Can Not Be Patched Up.

[ASSOCIATED PRESS TELEGRAM]

Washington, Oct. 29.—Press dispatches to The Hague transmitted to the state department today say General Ludendorff resigned his post as first quartermaster general and real leader o fthe German army as the result of a complete disagreement with Prince Maximilian, the chancellor. There was no possibility of a reconciliation according to these advices and the emperor was compelled to accept Ludendorff's resignation.

OBJECTS TO CONTROL OF ARMY BY PEOPLE

London, Oct. 28.—General Ludendorff resigned as first quartermaster general because the military authorities were placed under civilian control. The retiring general, an Exchange telegraph dispatch from Copenhagen adds, has returned to great headquarters to take leave of the army and Field Marshal van Hindenburg who remains as chief of the army.

BULGARS CHARGED WITH CRUELTY TO GREEKS

Saloniki, Saturday, Oct. 26.—The Bulgarians, during their occupation of eastern Macedonia, attempted to force the Greeks of that province to become Bulgarians and treated the Greeks cruelly, declares Dr. Pazis, vice president of the Greek chamber of deputies, and deputy for Seres.

"There were wholesale deportations and the people were abandoned to famine, outrage and murder," says Dr. Pazis, who has just returned from a trip through eastern Macedonia.

The Bulgarians gathered together a large number of Greek children and sent them into Bulgaria without the parents of the children knowing the purpose of the Bulgarians.

In a hospital in Saloniki is a 14-year-old Greek girl, Aglaia Nouli, who was cruelly treated by the Bulgarians who murdered her father and mother. Her father, the mayor of Bourgade, died at the hands of the Bulgarians with these words on his lips:

"I was born a Greek and I will die a Greek."

The girl's mother died as a result of inhuman treatment at the hands of Bulgarian officers.

THREE MARINE AVIATORS ARE KILLED IN ACTION

[ASSOCIATED PRESS TELEGRAM]

Washington, Oct. 28.—Three fatalities among marine corps officers in the aviation service abroad were reported to the navy department today by Vice Admiral Sims. Second Lieutenants Harry C. Norman, Davenport, Iowa, and Caleb W. Taylor, Pelachatchie, Miss., were killed when a bombing plane was shot down by the Germans on the Belgian front. Lieutenant Ralph Talbot, South Weymouth, Mass., was killed when his plane fell in the same sector.

EQUAL TARIFF FOR ALL IS WILSON'S DEMAND

[ASSOCIATED PRESS TELEGRAM]

Washington, Oct. 28.—President Wilson replied today to republican contentions that the third of his fourteen peace terms is a free trade plank by explaining that in demanding the removal of economic barriers he meant to suggest no responsibility of internal economic policies, but only that whatever tariff, high or low, any nation might deem necessary, should apply equally to all foreign nations.

The president made the explanation in a letter to Senator Simmons of North Carolina, chairman of the senate finance committee, who had written him asking for a statement "because certain republican leaders were attempting to make partisan use" of the paragraph.

"Weapons of economic discipline and punishment," the wrote, "should be left to the joint action of all nations for the purpose of punishing those who will not submit to a general program of justice and equality.

He added that to inject the bogey of free trade, which is not involved at all, was to attempt to divert the mind of the nation from a broad principle of a durable peace, and that it was lamentable that momentous issues of this solemn hour should be seized upon in an effort to bend them to partisan service.

THREE U. S. SOLDIERS ESCAPE HUN PRISON

The Hague, Oct. 28.—Three American prisoners of war have succeeded in escaping from Germany into Holland. They are: Flight Lieutenants T. E. Tillinghast of Westerly, R. I.; John O. Donaldson, Washington, D. C., and Robert Anderson of Honolulu.

The avators were captured during the period from September 3 to September 27, and they escaped from Valenciennes on September 27, reaching the Dutch border after many narrow escapes.

Washington Regards Berlin Reply As Mere Acknowledgement of Wilson's Last Note Demanding Virtual Surrender—President Not Expected to Reply

[ASSOCIATED PRESS TELEGRAM]

Amsterdam, Oct. 28.—Austria in her reply to President Wilson accepts all the views expressed by the president in his note of October 19.

Austria says she is willing and ready, without awaiting the result of other negotiations, to negotiate a peace and an immediate armistice on all Austro-Hungarian fronts.

In the last fe wdays it has been reported that the Czechs were in complete control in Bohemia. It also has been reported that the Jugo-Slav nations have taken steps to throw off the yoke of Austria and establish a free state.

SAXONY MINISTERS ALL QUIT CABINET

[ASSOCIATED PRESS TELEGRAM]

Amsterdam, Oct. 28.—As a consequence of the reorganization of the government of the kingdom of Saxony, all the ministers have resigned, the Saxon State Gazette has announced today, according to advices from Dresden. King Friedrich August has accepted the resignations of the premier and minister of finance, it is said.

SWISS LEGATION GETS BERLIN NOTE BY CABLE

[ASSOCIATED PRESS TELEGRAM]

Washington, Oct. 28.—The German government's reply to President Wilson's last note, assertitng that the negotiations for peace are being conducted by a peoples government with actual and constitutional power and that the terms of the American and allied governments for an armistice are awaited reached the Swiss legation today by cable.

This communication is regarded here merely as an acknowledgement of the President's note with an indication of the anxious desire of those now in power at Berlin to hasten the coming of a definite statement of the terms upon which their enemies will permit hostilities to cease.

The president is expected to make no rejoinder. His personal exchanges with the German authorities, officials said today ended when he transmitted the correspondence to the allies. The next step must be on the part of the co-belligerents acting in concert.

Announcement from London that Premier Lloyd George and Foreign Secretary Balfour had left for Franch with naval and military advisers foreshadowed an early meeting of the supreme war council at Versailles.

While the military and naval members of the council are drawing terms of an armistice which will be tantamount to surrender by Germany the political representatives of the entente powers are expected to discuss the individual peace views of their governments with a view to formulating a complete program to be presented if Germany accepts the terms of the armistice.

CROATS DRIVE GOVT. TROOPS FROM FIUME

[ASSOCIATED PRESS TELEGRAM]

CZECHS GET CONTROL OF FOOD SUPPLIES

[ASSOCIATED PRESS TELEGRAM]

Amsterdam, Oct. 28.—Austria has handed over entire control of food supply an ddistribution to the Czech authorities in Bohemia, a Vienna dispatch to the Vossische Zeitung of Berlin says, with the result that 100 carloads of potatoes are on their way to the famishing Austrian capital.

A dispatch from Prague to the same newspaper dated October 24, says that in compliance with a demand made by American bankers the Czech leaders have been given an undertaking that the prospective Czech government will make every effort to have the new regime in Bohemia come into operation without excesses.

The correspondent adds and that this is borne out by the entire calm behavior of the Czechs in Prague who are entitled to credit, at least for the present, for keeping perfect discipline.

BERLIN AWAITING ARMISTICE TERMS

Reply to Pres. Wilson's Note Received in London —Official Text Awaited Here.

(Compiled from A P Dispatches)

Germany asks the allies to name the terms for an armistice

A note to this effect is now on its way to Washington from Berlin it is reported The note is understood to call attention to the "far reaching changes" made in the German constitutional structure and is said to avel that a peoples government which is in control of the military powers of Germany, is carrying on the negotiations

It is understood that the allies have decided upon the terms to be exacted before hostilities are suspended, but the terms will not be announced until the German note is officially made public

Austria, too, has replied to President Wilson It is understood that her note is couched in the "most conciliatory terms" but no intimation of its text has as yet been made public

General Ludendorff, who led the German armies in the big offensives of the past spring and summer has resigned

German forces holding the sharp salient between the Serre and Oise rivers in France have been compelled to abandon their positions which they have obstinately held for the past 12 days The French armies on either side of this salient launched a blow on Saturday which flattened out the angle in the enemy s front and which may have a very definite effect on the German line eastward through Rethel and the Argonne forest to the Meuse It may be that the Germans have prepared lines further east to which they are now retiring along the Serre Oise front, but they are not apparent on the map There are few if any natural positions which will lend themselves to defensive operations west of Vervins south of which there is broken country To the north of Vervins there are extensive forests, which might be utilized as cover by the enemy

It is reported that the Hunding line is broken near Guise If this is a fact the whole German line south and north of that city is in danger Collapse of the enemy's front there would weaken the lines along the Aisne near Rethel where the French have been virtually held up for some time If the line of the Aisne gives way, the Germans further east, around the Argonne forest and nearer the Meuse must readjust their lines it would seem.

In the neighborhood of Valenciennes the British are still fighting their way ahead but their progress over the restricted front between Mormal forest and the bend of the Schedlt is quite slow. Further north the enemy seems to have established himself strongly behind the Schdlt and only local successes by the allies are reported

There is no evidence of lowered morale in the savage resistance of the Austrians before the Italian attacks in the Brenta and Piave sectors in Italy It would appear that the allied forces there have not been able to move ahead except by dint of terrific effort and at a very slow pace It seems probable that the offensive will develop into a reconnaissance in force instead of a real offensive

General Allenby's forces in Palestine have occupied Aleppo and appeared to have virtually completed the destruction of Turkish power in Syria The way is now open for a junction between the army of Allenby and the one moving up the Tigris

A series of fifty two articles written by experts on advertising for your benefit. They will appear weekly in The Advocate. Read them and learn how advertising helps you

Advertising has been, and is, one of the greatest educators of the times Before the days of advertising, the purchase of anything from a hairpin to a diamond, was absolutely guesswork, or a dependency upon one's own personal knowledge of the article being bought, and that, of course, was necessarily limited to the innumerable things any individual purchased from day to day or year to year

ADVERTISING IS WHAT?

Simply the function of informing the public—educating the public—describing the products offered for sale—telling of what they are made, how they are made, how they meet the requirements—in short, telling the public everything about the goods offered so that when the purchaser goes to buy, whether it be the goods of the particular advertiser or not he or she will be posted—educated—to a degree not possible before advertising of the character of today was practiced

It would be difficult, indeed, to estimate the educational value of advertising in dollars and cents, to the people of today Stop and think for a moment. Consider the innumerable products being advertised today. Advertising has taught the public to know more about, if not all about the respective qualifications of each and every one of them

Take such a little thing as a soda cracker

What did advertising teach us about crackers? Strange to say—cleanliness Before the advent of such advertising, we used to buy crackers in the bulk out of a barrel which usually stood wide open in the grocery store catching all the dust, dirt, filth, flies, etc, that happened to be floating around

It used to be like hiring Tobias Habson's horses he was the first man in England who let out livery horses When anyone wished to hire a horse he was obliged to take the one standing nearest to the stable door—he had no choice Hence the old saying "Hobson's choice"

Buying crackers in a paper bag was like hiring Hobson's horses You had no choice You had to take them out of that unsanitary cracker barrel, with dirt and all—stale and soggy—handled by clean and unclean hands

But now—how different They and hundreds of other food articles, which used to be sold in bulk exposed to dirt and dust, today come in sanitary dust and dust proof packages, the value of which are inestimable And—advertising was the means used to teach us this valuable feature.

A wise man has said that, "education is that training which fits us for the duties of life"

Advertising in all its ramifications educates us It is a great big text book—a home study course on modern methods and better living. It broadens the mind develops it—sharpens it—and does this valuable educational work all unconsciously. Advertising teaches the housewife time and labor saving methods in the home, by the use of such modern inventions of Vacuum Cleaners, Electric Washing Machines, Fireless Cookers, etc It teaches the business man time and labor saving methods in the office and factory by the use of Adding Machines, Motor Trucks, Loose leaf Accounting Systems, etc It teaches the farmer time and labor saving methods on the farm by the use of Tractors, Milking Machines, Silos, Metal Cribs and Bins, etc. In fact, advertising influences everything every one of us eats, wears or uses in our daily life

It is doubtful if the average man ever thinks of advertising as an educator because everyone looks upon advertising solely as a means of selling goods You, probably, have not thought of it beyond this point but before advertising can accomplish its prime mission it must educate—acquaint—inform, and because of this it is one of the greatest educational forces in the world today.

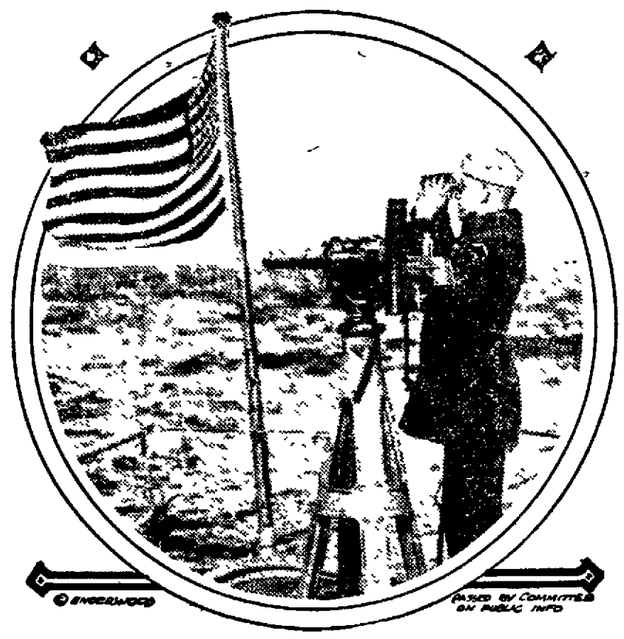

Advertising is as necessary in any publication as the reading matter Take the advertising out of the daily papers and magazines and you would soon reduce that half the value from an information standpoint was gone—and the most important half at that

Though you read your daily paper for news, in a short time you would want to know where you could get the necessities of life, what was on the market, how to buy and what to buy to the best advantage

And without advertising you would pay more for what you do buy, because advertising makes for economical production through far greater sales brought about by educating the public how, where and what to buy to the best advantage.

Therefore it would seem that one of the greatest advantages of advertising to the general public is its educational force because it teaches them and fits all of us—boy and girl—man and woman—to meet the duties of life so that we may live better, live happier and live longer

"AVAST! U-BOAT ON STARBOARD SIDE!"

On the lookout for a German raider.

Uncle Sam's submarines are not the best boats for hunting German undersea raiders. But they are doing all that could be expected of them. This Jackie on one of our submarines thinks he sees in the distance a German sub.

Games of Chance.

Lots of women who think it is terrible to gamble will buy cantaloupes and see no harm in it.—Cincinnati Enquirer.

Heredity.

Some people never get over their birth and raising The higher in a tree a monkey climbs the more of a monkey he becomes.—Paterson Call.

How It Is Done.

When a woman is content to grow old gracefully, she usually does it grayfully.

Opposite Effect.

"Plenty of music will keep the husband at home," says a writer. Not if it's chin music.—Boston Evening Transcript.

Area of Greenland.

Corrections made recently in maps of Greenland have shown it to be about 150,000 square miles larger than formerly believed.

Daily Thought.

Zeal is blind, or badly regulated, when it encroaches upon the rights of others.—Pasquier Quesnel.

Just So.

To be successful a farmer has to be sharp as a raiser.—Boston Transcript.

Quite Equivocal.

"I understand Jaggs is in fine health and full of spirits." "Full of spirits? Why, I heard only yesterday that he was on the water wagon."

Optimistic Thought.

When one science is learned others become easy.

You Bet.

Every married man can name one woman who has a fine husband.

His Reason.

The Quizzical One—"And why do you think people should marry their opposites?" The Other One—"I am a divorce lawyer."

When They Weigh Most.

A floating item states that it takes 5,000 bees to weigh a pound. They weigh more when they sit down.—Cleveland Plain Dealer.

"I have a message of peace," says Germany. "Tell it to the marines," says Uncle Sam.

Fast Swimmer.

The fastest fish is said to be the dolphin, which can swim short distances at the rate of 25 miles an hour.

Extraordinary Optimist.

An inmate of a Canadian charity home laughed himself to death over a joke. A man who can laugh himself to death in the poorhouse is a peculiar sort of an optimist that this world hasn't enough of.

Friendship's Obligations.

I must feel pride in my friend's accomplishments as if they were mine—and a property in his virtues.—Emerson.

Uncle Eben.

"A man betrays hisse'f by braggin'." said Uncle Eben. "When I hears a man tellin' 'bout how easy he kin drive a mule, I knows right off he ain't no reg'lar mule driver."

Gangway.

Sign in Maine: Bumpus and Catchell.—Boston Transcript.

Maintaining One's Rights.

If it be a duty to respect other men's claims, so also is it a duty to maintain our own. That which is sacred in their persons is sacred in ours also.—Herbert Spencer.

Nothing in a Name.

"Namin' a boy 'George Washin'ton,'" said Uncle Eben, "is as much a sign dat he's g'ineter be truthful as namin' a mule 'Job' is a sign dat he's g'ineter be patient."

Still They Will Happen.

Mistakes will happen, but the difference between a good man and a poor one is that the good man is always on guard.—Detroit Free Press.

Forgiveness.

The brave only know how to forgive—it is the most refined and generous pitch of virtue human nature can arrive at.—Sterne.

Surely Not Bump of Knowledge.

O'Brien met Flanagar and noticed he had a big lump or his forehead "Hello," said O'Brien, "is that a bump of knowledge?" "Indeed, it's not," said Flanagan. "It's a bump of ignorance of knowing nothing about boxing."
